

**The National Electrical Contractors Association
& the Oregon-Columbia Chapter, NECA, Present:**

Project Management for Electrical Contractors (PART 2)

Thursday, August 29- Friday, August 30, 2019

Oregon Columbia Chapter, 601 NE Everett St., Portland, OR 97232

\$450 per-person for Chapter Members

The project manager is the center point of every construction project. It is a job with many facets that requires leadership, technical knowledge, sound judgment, common sense and sensitivity to people, excellent communication skills and a knack for diplomacy. This course will focus on defining project management, planning reliability, contract administration, scheduling fundamentals and benchmarking and quality control.

Following this class, participants will be able to:

- Discuss the need for project management, planning reliability, contract administration and benchmarking
- Discuss practical project management experiences
- Explain how to use technical knowledge to complete work on time, according to specifications and gain profit

This course will be facilitated by Bob Segner.
